

Frans Extensions

- AddressValidation: app/code/Frans/AddressValidation

Config values:

The screenshot shows the Frans Admin configuration interface for the Address Validation extension. The page title is "Configuration" and the scope is "Default Config". A "Save Config" button is visible in the top right corner. The left sidebar contains a list of configuration sections: GENERAL, ECOMPLUGINS EXTENSIONS, SECURITY, CATALOG, CUSTOMERS, AHEADWORKS EXTENSIONS, SALES, Delivery Methods, Accounting, Order Processing, Weather Report, and Address Validation. The "Address Validation" section is currently selected and expanded, showing the following configuration options:

- Enabled (website):** Yes Use system value
- Sandbox Mode (website):** No Use system value
- Enable Classification (store view):** Yes
- Google API Key (store view):** Alza5yBp55DEGKwWZ5ajwT2PQJAjozy2sd5X4w
Google API Key used for Address Validation
