

Reports

Frans Admin Reports and some custom reports build for Frans such as AccPac

- [AccPac report](#)

AccPac report

AccPac report can be downloaded from BE Invoice. Select a few invoices; then choose Export dropdown, choose AccPac.

Terms: PBI: Pay By Invoice. For AccPac, PBI orders are exported differently than non-PBI orders.

Code: ConvertToAccpac.php

Steps to build AccPac report:

First; grab all the headers (orders)

Query:

```
$orderHeaders = $connection->fetchAll($queryGetHeaders);
```

Order headers are grouped by OrdUniq. OrdUniq are either Accounting Label ID (or sales_payment's po_number; in case the order is PBI). Note that AccPac report is supposed to be exported only once per day; therefore the OrdUniq should always be unique. Look into the raw SQL query GROUP BY to know more.

Second; grab all the details from `sales_invoice_item` :

```
$orderSkuRows = $connection->fetchAll($queryGetSkuRows);
```

\$orderSkuRows are grouped by OrdUniq (see above); and then grouped by AccPac SKU.

With the \$orderHeaders and \$orderSkuRows, we are ready to build the report.

Example built report look like this:

For a PBI order:

```
RECTYPE,ORDUNIQ,ORDNUMBER,CUSTOMER,SHPCODE,SHPPHONE,SHPFAX,SHPCONTACT,PONUMBER,TYPE,ORDDATE,EXPDATE,LOCATION,TAMOUNT1,AUTOTAXCAL  
RECTYPE,ORDUNIQ,LINENUM,LINETYPE,ITEM,MISCCHARGE,CATEGORY,LOCATION,QTYORDERED,PRI  
UNTPRC,EXTINVMISC,INVDISC,TAMOUNT1,COMMINST  
RECTYPE,ORDUNIQ,PAYMENT  
RECTYPE,ORDUNIQ,UNIQUIFIER,DETAILNUM,COIN  
RECTYPE,ORDUNIQ,UNIQUIFIER
```

RECTYPE,ORDUNIQ,OPTFIELD

RECTYPE,ORDUNIQ,LINENUM,OPTFIELD
